

Project Design Phase I Solution Architecture

Team ID	PNT2022TMID23224
Title	Detecting Parkinson's Disease using Machine Learning
Team Members	Dineshkumar P Kishore kumar R Krithik Deivarajan V Darshan Ajit K R

The architecture helps to identify the steps needed for the project. It helps to break complex problems into subproblems such that we have a clear cut idea of the process and their workflow. The architecture is as follows:
